- Para Camera Club
- Penta Camera Club
- Photographic Preservation Society of SA
- Port Adelaide Camera Club
- Tea Tree Gully Camera Club of SA

**The South Australian Photographic Federation** was formed in 1962 as a volunteer body providing support, encouragement and promotion of amateur photography in South Australia.

It is the 'umbrella' organisation representing various **metropolitan** and **regional** photography groups in SA.

To help **improve your photography** membership in a local or regional camera club is highly recommended.

Basic skills in the art of photography can be developed, as well as an opportunity to socialise with like-minded people passionate about their photography.

The SAPF holds an **Annual Exhibition** of prints and projected images, showcasing the finest photographic work by South Australian amateur photographers.

Through collaboration with **Diamonds/Photographic Wholesalers and other photographic businesses**, our members benefit from discounts on equipment, seminars and workshops. Similar educational events are also available through various camera clubs and SAPF.

Although photography remains the basis of our organisation, the **AV Club of SA** and the **Photographic Preservation Society of SA** provide alternatives to those who wish to follow a different path.
