

SAPF “LIGHTROOM INTRODUCTORY COURSE” – November 2017

The course is designed for extreme beginners in Lightroom who **must have their own laptop computer** with a recent version of Lightroom installed. Bring your laptop and a notebook to record personal notes to each session.

DATES AND TOPICS TO BE COVERED:

Day 1 – Saturday November 4th, 9.30am – 12.30pm

- Introduction to the Adobe software and the benefits of using Lightroom.
- All of the Lightroom Modules and how they are used.
- Raw files and Adobe Camera Raw....how to import files into Lightroom.
- File naming and tracking your images in your Pc via the Library Module.
- Summary of the introduction session.

Students may bring a selection of Raw Digital Images on a Card/USB/ Camera ready to be downloaded into the Lightroom program. The tutor will also provide some RAW images to work with.

Day 2 - Saturday November 11th, 9.30am – 12.30pm

- Revision of week 1
- Develop Module and all of the editing functions.
- Quick tips and tricks for editing in Lightroom.
- Rating images & adjustments of your imported images.
- Practice editing Students own images.
- Summary of week 1 & 2

Day 3 – Saturday November 18th, 9.30am – 12.30pm

- Revision of week 1 & 2
- Advanced editing of the imported images.
- Interacting with Adobe Photoshop.
- All the other Modules and how they work.
- Exporting images to file location, file naming, file settings, file size, watermarking.

Day 4 – Saturday November 25th, 9.30am – 12.30pm

- Advanced editing project - bringing it all together
- Revision

Some of these topics may change depending upon Student progress and understanding.
